KODAK S3120 Max/S3140 Max Scanners

Best in Class. Built to Last.

We deliver high-performance document processing the way it should be. It's what comes from decades of expertise in fine-tuning production capture.

No one builds scanners better than Kodak Alaris.

The KODAK S3120 Max and S3140 Max Scanners are powerful connected solutions. These compact production scanners include robust security features, advanced image processing, and unique feeding technologies that create an exceptional user experience.

FADGI Compliant

Built-In Network Integrations

Physical/Digital Imprinting

Color Touchscreen

500-sheet ADF, for High-speed Throughput

Ultra-rugged, to endure no matter what

Our engineers design every feature to withstand the rigors of nonstop operation. They have separated the process of managing the document stack from getting pages into the scanner, creating a smooth feeding experience that can handle the wide variety of documents you need to scan.

Defend operators from everyday challenges that add up to big impacts. Our unique media controls eliminate errors and interruptions so you can get more work done.

Intelligent document protection actively listens for the sound of paper-feeding abnormalities caused by obstructions or stapled documents. Preventing any potential damage to your documents or the device.

Powerful versatility

When you need to scan high volumes day in and day out, connect to a high-performance PC and make the most of the scanner's exceptional speed.

Whether you're a government agency or a scanning service provider, our document scanners are ready to meet specific compliance standards, right out of the box.

The right software, included

KODAK Capture Pro LE outputs industry-standard PDF-A and compressed PDFs for smaller file sizes. You can even choose to encrypt or password-protect your files. Best of all, there are no file output limits to worry about.

For even greater functionality, upgrade to the full version of KODAK Capture Pro.

KODAK A3 Size Flatbed Accessory

KODAK Capture Pro Software
